

CHORDS and CAFE Coordinating SET group activities

Kyle P Messier, PhD

National Institute of Environmental Health Sciences - Division of Translational
Toxicology - Predictive Toxicology Branch

Packages

1. amadeus
2. beethoven
3. chopin

Each package is being developed as a peer-reviewed manuscript

Vignettes

Developed and Ready for Final Review

1. Introduction to Spatial Analysis for Environmental Data in R
2. NASA EarthData Download

Vignettes

Discussed and Ready for Development

1. Unit and Integration Testing for Environmental Health Analysis
2. Manipulating spatial and spatiotemporal data in R using sf, sftime, terra, and stars
3. Intermediate Spatial Analysis for Environmental Data in R
4. Spatial and Spatiotemporal Cross-Validation
